

PREDATAR

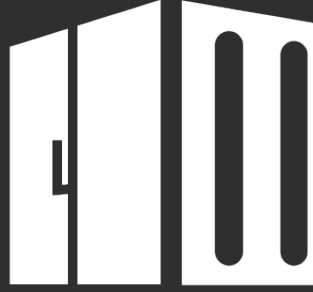

Eliminate backup silos across hybrid clouds

Your single data protection platform for traditional on-premise & cloud-native applications

BUILT FOR

Businesses building container based architectures linked to Power AIX or Mainframe workloads.

Traditional data protection is **too slow** for agile businesses

Cyber Crime & **Ransomware** are increasing

Many separate backup products **increase costs** & kill efficiency

WHY?

What is Predatar?

-  One view across all your data
-  Deep Insights
-  Smart Automation
-  Backup & Recovery Orchestration

One Platform.

Two Choices.

Platform as a Service

or

Outsourced Service

Hardware as a Service

or

Use existing Infrastructure

One Promise.

100% restore guarantee or 3 months subscription for free
